Technical Application Guide for RL EUROPE LED Ceiling light

UP-AL24A-12-18W

Introduction

The hollow shape is full of creativity which brings vitality into ordinary lamp body and shows faultless performance, provides a strong sense of space.

The curved light direction emphasizes target object in a smooth and dramatic atmosphere, revealing an unexpected art inspiration design, which brings a comfortable way of visual experience.

By having an arc luminous surface, we break traditional design. The circular light output offers a magic 3D effect; rotate buckle on the base to make installation easier and faster.

Driver lifetime & LED light decay rate

Temperature

- The testing is operated at 25°C
- The lifetime of capacitor, minimum of 5,000 hours if operated at 105°C, will be doubled whenever the temperature drops 10°C
- The highest withstand temperature of IC, MOS could be 120°C
- The highest withstand temperature of LED junction temperature is 150°C

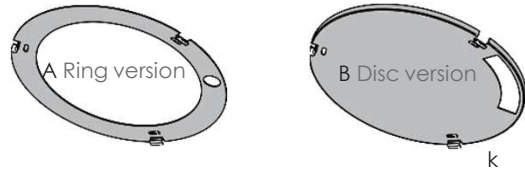

The driver lifespan is based on capacitor working temperature.
